

Everything Grows
with Love....

Happy
Mother's
Day

@WestWalesFamilyLife

Mum

I planted my love inside this bottle
and mixed it with soil, so you can
place it on your windowsill in the
sun and watch it grow daily.

You do not need to add any extra
water as the love in our home will
provide everything it needs to grow.

And when this sunflower outgrows
this bottle we can plant it in our
garden where it can grow bigger
than both of us.
